VISIONARY DVD—

DON'T JUST WATCH IT

PLAY IT.

DVD-

EXTIVA - THE NEXT

The DVD-N2000 brings new life to your DVD collection with a vast array of new features.

FINE MOTION™ scan and slow allows smooth, seamless scanning of DVD video, in both forward and reverse.

MEDIA MACRO™ zoom and pan function lets you magnify any portion of the screen up to 20 times with virtually no image distortion.

SNAP SHOT™

-N2000

GENERATION OF DVD

ACTION CAPTURE™ strobe splits fast moving action into nine consecutive frames, constantly updated as the video plays. Use the joystick remote to select the exact frame you want.

ANGLEVIEW™ display system shows the current angle of multi-angle discs full screen, while additional angles are displayed as thumbnails along the bottom of the screen.

SMARTMATRIX™

DO MORE

Of course there is more to Extiva DVD than just video.

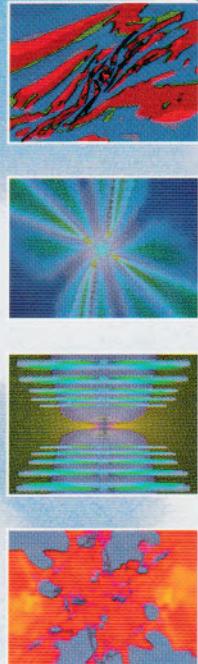

SMARTMATRIX™ display system lets you view the video action while monitoring virtually every DVD parameter.

VIRTUALLIGHT MACHINE™ displays a variety of pulsing shifting color patterns that respond instantly to every musical nuance.

SNAPSHOT™ mode that lets you fine-tune the appearance of a video frame. Use the Analog Video outputs to export your masterpiece to a PC capture card or video printer.

HEAR MORE

The DVD-N2000 also takes audio performance to an even higher level with sophisticated processing of every audio signal. And the comprehensive connector panel allows simple connections to any system.

5.1 CHANNEL OUTPUTS

Integral Dolby Digital® Decoder allows the DVD-N2000 to be used with a Dolby Pro-Logic® receiver. Just connect the 6 analog outputs to the inputs of the receiver.

DIGITAL AUDIO OUTPUTS

Dolby Digital® and DTS® compatible digital output terminals provide a direct connection to a full Dolby Digital® receiver or external Digital to Analog converter. Both Optical and Coaxial terminals are provided.

STEREO OUTPUTS

Analog stereo audio outputs carry a mixed-down version of the 6-channel Dolby Digital® signal. This signal can be connected to a Dolby Pro-Logic® receiver, or just connect to a stereo amplifier.

96 kHz/24 bit

High Speed 96kHz/24 Bit audio Digital to Analog converters deliver pristine audio quality from every disc. Most importantly, they accurately reproduce the latest DVD discs that are recorded in the 96kHz/24 Bit format.

NUON INTERACTIVE DEMO GAMES

IRON SOLDIER

TEMPEST 3000

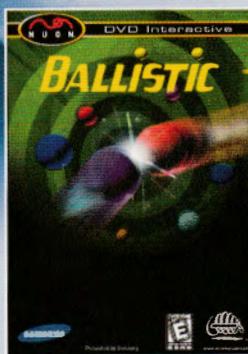

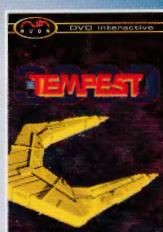

MERLIN-RACING

Unlike any previous DVD Player, the Extiva DVD-N2000 gives you a complete gaming system right inside. Ballistic, one of the most popular fast action shooting games, is included right in the box, complete with every playing level. Four additional demonstration games are also included, along with one MediaStick game pad. And the DVD-N2000 is compatible with all NUON games and peripherals, bringing new excitement to your system time after time.

A COMPLETE VERSION OF BALLISTIC
AND FOUR ADDITIONAL DEMO
GAMES ARE INCLUDED.

GET MORE

The DVD-N2000 comes complete with everything you need to enjoy movies, games and your favorite audio CD's. One set of the new MediaStick advanced game pad comes right in the box. This sleek design fits comfortably in any hand, and features strategically placed buttons as well as a directional control pad. The Advanced Universal remote features Samsung's Joystick control system, allowing intuitive navigation of the **SMART MATRIX™** User display or any DVD Menu. Later in year 2000, an optional Modem with integrated Web Browser will be offered. This accessory will add complete **Internet functionality** to Extiva's exhaustive array of features. And the elegant front panel of the DVD-N2000 gives you complete access to all the fun, with dual NUON ports, gold plated headphone jack and a silky-smooth headphone volume control. The bright, easy-to-read vacuum fluorescent display monitors disc activity, while the Jog Shuttle dial takes you straight to the action.
